UPRISINGS IN CUBA.

Confined, However, According to Official Report, to a Band of 14.

Havana, Cuba, Aug. 20.—The rumors of uprisings in Cuba are confirmed in some quarters. A detachment of rural guards Friday night encountered a band of 30 men near Rio Hondo, province of Pinar del Rio. The band, which is commanded by Col. Pozo, the well known veteran, fled after an exchange of shots, leaving one horse killed on the field. It is stated that two other bands are roaming about Pinar del Rio, led by locally influential men, but at the palace at Havana it is said that the Pozo band consists of but 14 men, and that no other bands are out. The secretary of the interior declares that the 14 outlaws have been dispersed, and that there is no truth in the rumors to the effect that other bands are out.

Rural guards recently encountered a band of outlaws in Santiago province, led by Enrique Mesa, a notorious bandit. One rural guard was wounded, and two of the outlaws were captured. The grounds for the uprisings are vague, and are said to be simply general discontent and a revival of the revolutionary habit among the ignorant adventurous classes.

RAN THROUGH A SWITCH.

Twentieth Century Limited Wrecked Near Elyria, O.

Cleveland, O., Aug. 20.—The Twentieth Century Limited, east bound, on the Lake Shore road was wrecked about a mile and a half from the station at Elyria, O., at 8:30 Saturday evening. The train ran through a switch at the junction of the Lake Shore with the Baltimore & Ohio tracks, and jumping the track, the engine and several cars went into the ditch. The engine was overturned and the coaches were damaged, but it is reported that the only person seriously injured was a fireman, whose legs were crushed under the engine. The road was blocked, tying up several other trains.

STRUCK BY TRAIN, HE CHIDES CREW

Deaf Man of Seventy, Knocked Down Embankment, Gets Up and Resumes Walk on Track.

James Garth, seventy years old, a resident of Webster Groves, Mo., was hit by an engine and knocked from the railroad track down an embankment fifteen feet. Garth is deaf and did not hear the engine approaching. The engine ran on nearly a hundred yards beyond the scene of the accident before it was stopped.

The train was backed to the spot where Garth had stood when the engine hit him, the crew expecting to pick up his mangled body.

Instead they found the aged man already on his feet and walking back toward the track. The train crew offered to assist him, but he refused all aid. He was plainly vexed and chided the crew for their carelessness.

After the train had started on again Garth got in the middle of the track and continued his journey.

NEW YORK.

Did you ever stop to think what sort of water washes the shores of New York city? Daily 488,000,000 gallons of sewage go into it.

The New York clearing house, with about \$92,000,000 in annual clearings, does more than twice as much business as all the other clearing houses in the United States.

New York is the only city in the world that has three life saving stations within its borders. There is one near the village of Rockaway, one on Coney Island and one at the west end of Rockaway Beach.

"Money" is the basis of more talk in New York city than any other dozen subjects. During one hour in a car, on the street, in two shops and one office seventy-three conversations, and sixty-four of them involving money, were counted.—New York Herald.

Elephants.

An African elephant is of value only for its ivory, of which a full grown animal yields from \$250 to \$300 worth. On the other hand, a working Indian elephant cannot be bought for less than \$2,500 to \$3,500. This is because of the greater intelligence of the Asiatic animal, which makes him valuable as a servant.

11-INNING VICTORY

Champs Snuff the Glim for Canadians

BURNS WINNING PITCHER

Fine Game in Which Barre-Montpelier Excelled in Fielding - Champs Are Now Fast Climbing.

The Champions returned yesterday afternoon from Ottawa, where on Saturday they duplicated their Friday performance with a victory over the Canadians. The second contest was much better than the first, taking 11 innings to decide it. Burns allowed less hits than Hildebrand but the latter had a better record of strike outs and bases on balls.

Beginning Saturday Barre-Montpelier is within halting distance of second place and if the league should hold together for three weeks the Champs ought to take second place.

WHY DORMAN WAS RELEASED.

Get Saucy and Also Played Poor Ball, It Is Said.

The release of Capt. John Dorman by the Ottawa management is told in the following from the Ottawa Free Press:

As the result of a meeting of the Ottawa baseball executive, held in the Brunswick hotel last night, Captain John Dorman was released and given his unconditional release from the team. From what can be learned, it was apparently outside the province of the club officials to release a player, but they took matters in their own hands after one or two incidents in yesterday's game and gutted Dorman.

Dorman has been unfortunate in never instilling himself as a favorite with the baseball fans since the introduction of league ball this season. He started out playing third, was moved to short when Kennedy was signed, then placed on second when little Frank O'Brien joined the team. While not fast, he was pretty reliable and an average hitter.

It appears that yesterday Dorman ran into a streak of bad luck in the ninth. He fell down on two chances, and trying to head off a runner at the plate, heaved the ball to the grandstand. After the inning was over and he returned to the bench, some sarcastic fans applauded as he came by. It is reported Dorman retorted with: "Well, you lobsters paid to see it, anyhow."

This reached the ears of the club officials, and fully believing the team needed a shaking up, held last night's meeting and released Dorman for "poor judgment, impudence and bad comportment on the field." It is said "Doc" Hildebrand might jump the team as a result of Dorman's release. Otto Quinn, who did such good work in amateur circles here last season, and who was playing ball with Kilmory, Ont., this year, was telegraphed for to Brantford, N. Y., his home, and will be on the Ottawa bench today probably. Ball will likely hold down second this afternoon.

Does McManus Run the League?

Manager McManus of Rutland cut loose yesterday and tried to run the whole league at the Marble City fair grounds. Brown was sent over there to umpire by President Bailey and Hissett was ordered to Ottawa. McManus refused to allow this change, insisting that Hissett umpire. After a long dispute during which the crowd was incited to call Burlington quitters, a compromise was made and both umpires worked under the double umpire system. Needless to say the square deal did not come Burlington's way.

Manager McManus has also discovered that the various associations had no right to accept the revised schedule without consulting him. He claims four postponed games with Burlington notwithstanding that three of the team are included in the new schedule as regular games. He is reported to have said yesterday that he would break the league up if things did not run the way he wanted.—Burlington Free Press.

THE STATE OF VERMONT
A Dealer in Diseased Meat.

I, Frank T. Hutchinson, of Worcester, in the County of Washington, State of Vermont, of lawful age on oath depose and say. That in November, 1905, my herd of cows were tested by the cattle commission of the State of Vermont for tuberculosis, that forty-two were pronounced infected with that disease and ordered killed. They were appraised and I was paid 80 per cent. of the appraised value in accordance with the laws of the State of Vermont. These forty-two cattle were driven to Burlington to Swift's Rendering Plant under the authority of the Cattle Commission, and I, in company with Frank P. Whitney of Middlesex, Vermont, went and saw the cattle slaughtered.

All the cattle were dressed off as beef is dressed, and the various parts, —liver, tripe, etc., saved. The cattle after being dressed were put on the track and run toward the cooling room. We asked the head butcher what was to be done with them and he said that the inspector would be there and stamp those that were all right. We also visited the cooler and found three-quarters of beef therein and had a talk with the man in charge. There were two fore-quarters of beef and these had chunks off of them at the shoulder. He said it was the worst case he had ever had there. One hind quarter was marked "Paul Germain, Burlington."

I do not know what became of this meat except that it was dressed off as any beef and started off toward the cooling-room, and further deponent saith not.

State Auditor Admits It.

I, Perley E. Pope of Montpelier in the County of Washington and State of Vermont, on oath depose and say. That, in politics I am a Republican and by occupation a dry goods merchant in Montpelier, Vermont. That, having heard that the State of Vermont had sold to Swift Beef Company some of the meat from the cattle which had been condemned as diseased by the Tuberculosis Commission, I went to the Auditor's office in Montpelier to investigate for myself. While there I had an interview with Horace F. Graham, the auditor, in which interview Mr. Graham said, that it was true that some of the meat taken from the cattle which had been condemned as diseased and which had been paid for by the State, had been sold to the Swift Beef Company knowing that the same was to be put upon the market, but that this had not been done until the meat had been inspected by competent veterinarians and pronounced that it was not so badly diseased but that it could be cooked and eaten with safety. Mr. Graham further stated, that it was claimed that, while the milk from a cow that had tuberculosis was unfit for use the meat from the same cow might not be so affected by the disease, but that it might be used, and he said that was the reason the State had sold some of the meat from condemned cattle to Swift & Co., to be put upon the market by them.

German Girl Who Wore a Wig Gets 10 Cents Damages From Fastidious Sweetheart.

Fraulein Nini Stimmer of Berlin won her suit for breach of promise, but the damages have been assessed at only 10 cents. This isn't because her sweetheart, Gustave Weichmann, is or was a ten cent sweetheart, but because the judge thought Gustave was justified, all but ten cents' worth, in breaking his engagement to marry the fair Nini.
